The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 10-12, 40-43, 45-48, 50-55 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kaplan et al ,

Kaplan et al teach the safety and efficacy of sildenafil in post-menopausal woman for treating sexual dysfunction (title). Oral delivery is disclosed (p. 485 first full paragraph).

Place et al '841 teach a method for treating female sexual dysfunction comprising administering a vasoactive agent (abstract). Sildenafil is disclosed (column 7 line 46). The addition of another pharmacological agent, such as a steroid antagonist, is further taught (column 10 lines 23-27). Exemplified are tamoxifen, centchroman, and reloxafine (column 11 lines 19-22).

It would have obvious to one of ordinary skill to add a steroid antagonist to the orally delivered sildenafil in the method of Kaplan et al to achieve an additional beneficial effect for treating sexual dysfunction. As the claimed other claimed steroid antagonists, applicants stipulate that TSE-424, EM-652, EM-800 and lasofoxifene (claim 46) are known in the art as estrogen agonists/antagonists. As to the claimed pre-menopausal treatment, Place et al '841 teaches that dyspareunia may occur peri-and post-menopausally (column 2 lines 10-11) The invention is useful for treating

dyspareunia (column 16 lines 37-42). Thus, one of ordinary skill would recognize the treatment as applicable both pre-menopausally.

No claims allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
